Reference: Our Commitment to EU NIS2 Directive Compliance and Supporting Your Requirements

Dear Valued Customer,

As your trusted provider of access control, visitor management, and intrusion solutions, we are committed to your security and compliance, especially in relation to the EU NIS2 Directive. Recognizing the directive's importance in enhancing cybersecurity across the European Union, we are dedicated to supporting your operations. This statement highlights our NIS2 compliance strategy and how our products and services align with your needs.

Our Approach to NIS2 Compliance:

1. **Risk Management:** We implement a robust risk management framework that meets NIS2 standards, including regular risk assessments and system monitoring.
2. **Security Measures:** Our cloud-based services feature advanced security technologies to counter cyber threats, such as encryption, access controls, and frequent security updates.
3. **Incident Reporting:** We maintain effective incident management to ensure timely notifications of significant incidents as mandated by NIS2.
4. **Supply Chain Security:** We diligently vet and monitor suppliers to safeguard our entire supply chain.

How Our Products and Services Support Your NIS2 Requirements:

Access Controls: Our system enables you to:

- Implement the principle of least privilege.
- Use Role-Based Access Control (RBAC) for user permissions.
- Activate Multi-Factor Authentication (MFA) on our cloud services.
- Conduct regular user access reviews.
- Utilize our SaaS services for comprehensive logging.

Employee Education and Awareness: Our employees are integral to maintaining a strong security posture. We offer a comprehensive information security awareness program aligned with NIS2, including:

- Regular training sessions.
- Simulated phishing exercises.
- Briefings on emerging threats and how we respond to them.

We ensure all staff, from leadership to entry-level, understand their security roles. Our training covers incident reporting procedures, safe data handling, and adherence to security policies and standards. By fostering a culture of security awareness, we not only comply with NIS2 directives but also enhance our overall resilience against cyber threats, ultimately improving the protection of your data and operations.

Next Steps:

We actively monitor NIS2 developments, including country-specific adoption and other relevant legislation, such as the EU Cyber Resilience Act and EU Data Act, to ensure ongoing compliance.

We appreciate your trust and are dedicated to being your security and compliance partner. For any questions about our NIS2 compliance efforts or how our services can support your requirements, please contact us via our website (acresecurity.com).

Thank you for your continued partnership.

Sincerely,

Global Director of Regulatory and Int. Compliance Affairs

Please note that all contracts, including sales agreements, NDAs, and other legal documents, must be executed in the name of the relevant legal entity as listed above. Additionally, due to new e-invoicing regulations, 'acre security' cannot issue invoices in Europe directly; invoices must be issued under the appropriate legal entity.

For any further information or inquiries, please contact our Regulatory & International Compliance Affairs team.

Sincerely,

Wayne Russell
