

WIRELESS SOLUTIONS PORTFOLIO

Experience unmatched freedom and security
with acre Intrusion fully wireless solutions

- ✓ Cost-Effective Intrusion Detection
- ✓ Certified to Meet Security Standards
- ✓ Error-free Installation

acre security is a global leader in the delivery of digital and physical security solutions. Keeping your people, premises, and data safe is as important to us as it is to you. Working across banking, education, healthcare, pharmaceutical, retail, and more, we give our customers peace of mind that their data, offices, and employees will stay safe.

ACRE INTRUSION WIRELESS SOLUTIONS

acre Intrusion's fully wireless solutions represent a seamless blend of security and convenience, enabling you to tailor the security environment to meet users' specific needs. These devices eliminate the limitations of traditional wired systems, providing the flexibility to effortlessly expand and reposition security installations.

Tailored to Meet Your Distinct Needs

- Caters to the specific needs of SME, retail, and residential sectors
- Elegant design enhances the aesthetics of the workspace or home
- Adjustable settings to meet different requirements

Dependable Protection with Prolonged Battery Life

- Sophisticated technology ensures outstanding performance
- Up to 5-year battery lifespan reduces maintenance visits
- Use of common batteries allows for easy and convenient replacements

Seamless Installation for Instant Security

- Streamlined installation process reduces installation time
- Minimal disruption during installation
- Easy system activation: mount control panel, connect the mains, place wireless detectors

FULLY WIRELESS CONTROL PANEL

The **acre Intrusion AIC-1200 hybrid control panel** is a cutting-edge solution for safeguarding businesses and assets. It features 2-way wireless communication, supports up to 65 zones, and integrates seamlessly with acre Intrusion Connect, a SaaS application for managing intrusion systems.

- Cost-effective, all-in-one solution
- Remote access using a mobile app and web portal
- Up to 1300 meters wireless range
- Designed to meet the EN50131 Grade 2 standard

MOTION SENSOR SOLUTIONS

Acre Intrusion wireless motion sensor detectors are transforming security technology with their innovative design and easy installation. Ideal for residential and SME use, these advanced devices offer reliable performance and robust communication without the need for wiring. They provide remarkable protection and peace of mind for users.

- **WPIR/WPIR-CRT Wireless Motion Detectors**

Exceptional security protection that can be tailored for any indoor environment

- Quick and easy installation, pairing, and configuration
- 12-meter detection coverage
- Approved PET immunity up to 25kg (WPIR)
- EN Grade 2 certified

- **WPIR-EXT Wireless External Motion Detector**

Double quad motion detector that blends style and security

- Adaptable for use in even the most challenging environments
- 3-to-12-meter detection range
- Anti-mask functionality
- Designed for outdoor usage (IP65)

VIDEO VERIFICATION SOLUTIONS

These 2-way wireless motion detectors feature a high-quality integrated CMOS color camera, enabling visual verification of alarm events. Boasting an impressive communication range of up to 1,300 meters and a battery life of up to five years, these devices offer dependable security solutions.

- **WPIRCAM-INT Internal Wireless Detector**

Delivers exceptionally sharp images, even in low-light conditions

- Built-in white flash to enhance image quality
- PET immune PIR detection
- Provides black-and-white or full-color images
- Configurable camera with selectable resolutions (VGA or QVGA)

- **WPIRCAM-EXT External Wireless Detector**

Designed for use in severe and extreme weather conditions

- Combines two quad PIR with a CMOS color camera
- Allows precise targeting of specific areas
- Features active anti-mask
- PET immune PIR detection

MAGNETIC CONTACT AND SHOCK SENSOR SOLUTIONS

Advanced, low-power RF technology results in superior communication and extended battery life for these magnetic contact and sensor solutions that are easy to mount, pair, and configure.

- **WMAG-I Wireless Magnetic Contact Detector**

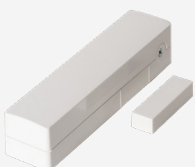

Supports wiring of an external input device to streamline installation

- Supports external input
- Configurable input as internal or external
- EN Grade 2 certified

- **WMAG-S Wireless Magnetic Contact & Shock Sensor**

Configurable as both a shock sensor and a shock sensor with a magnetic contact

- Independent shock and magnetic contact
- Different levels of sensitivity
- Screw or self-adhesive fixings
- EN Grade 2 certified

SYSTEM CONTROLLING DEVICES

Easily control the acre Intrusion system using these convenient wireless control devices designed for user-friendly operation and seamless integration.

- **WKP-SIM Wireless Keypad with Fobs**

Controls and indicates the status of the acre Intrusion wireless system

- Includes 2 fobs for setting and unsetting of the system
- Multi-coloured LED indications
- Quick set and panic alarm options
- EN Grade 2 approved

- **WRMT Remote Control**

Versatile remote control provides seamless interaction with the acre Intrusion system

- Intuitive LED behaviour (system status feedback)
- Configurable “Function” button
- SOS functionality (dual button press)
- Replaceable battery for maximum longevity

WARNING DEVICES

These sleek alarms offer both audible and visual alerts ensuring exceptional security. Their slim, stylish design allows for quick and easy installation in just seconds. With advanced technology, they ensure a powerful alert system, providing safety without compromising on aesthetics.

- **WSIR-INT Wireless Indoor Sounder and Beacon**

Featuring a sleek design, this indoor siren seamlessly blends style and security

- Internal sounder with selectable output volume
- Wall tamper protection
- EN Grade 2 approved

- **WSIR-EXT External Wireless Sounder and Beacon**

Comprehensive security features tailored for outdoor applications

- External sounder with selectable output volume
- Wall tamper protection
- 3 color options for integrated beacon
- EN Grade 2 approved

- **WPAN Wireless Personal Alarm**

Wireless personal alarm button that integrates with acre Intrusion system

- Configurable button to trigger a panic alarm or activate a user-defined system output
- Watch or pendant setup
- Intuitive LED operation
- Water-resistant design

OTHER WIRELESS DEVICES

Additional wireless devices that will enhance the acre Intrusion wireless solution

- **WGB Wireless Glass Break Detector**

- Acoustic glass break detector
- 8-meter coverage
- Wide selection of glass breakage detected
- EN Grade 2 approved

- **WSMK Wireless Smoke Alarm**

- Smoke detector
- Autonomous or system-based operation
- CPR = EN14604

- **WFLOOD Wireless Flood Detector**

- Flood detector
- Option for integrated or remote sensor
- 1 meter of sensor cable

- **WRPTR Simple Cube Repeater**

- 2-way wireless signal repeater
- Extends wireless range
- Rechargeable battery back-up
