UNPARALLELED RELIABILITY

- Every product undergoes rigorous testing to ensure it meets the highest standards of quality and performance
- Equipment is built to withstand the harshest conditions
- This commitment to quality is backed by our comprehensive warranties, offering peace of mind and unmatched value

INNOVATIVE SOLUTIONS

- Comnet by acre provides cutting-edge communication solutions tailored to diverse demands
- Products are designed for broad compatibility, ensuring seamless integration with existing systems
- Secure network infrastructure products ensure your video surveillance signals are delivered on-time, all the time

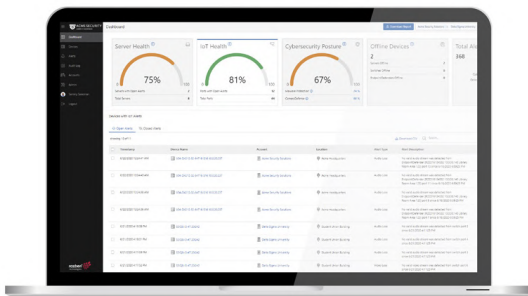

LEADING SAFETY AND SECURITY TECHNOLOGY

Comnet by acre prioritizes your network security. Our secure products have exclusive features that give you notifications regarding IoT health, cybersecurity risks and network integrity. Get additional physical and cyber protections using:

- **PortGuardian™** - Physical port lockout if an existing cable is disconnected to prevent a potential network attack using common spoofing techniques.
- **CameraDefense™** - Automates setting up cybersecurity protection on cameras and other IoT devices. Proactively manage and deploy best practices on cameras and IoT devices in minutes.
- **ApplianceDefense™** - Secure appliance architecture and software that provides comprehensive protection for your video servers. ApplianceDefense hardens appliances from cyber-attacks and keeps systems protected 24x7 while providing real-time threat alerts.

REMOTE MONITORING & NETWORK MANAGEMENT SOFTWARE

Comnet by acre's Monitor is designed to maintain and manage your system while addressing issues in real-time, on premise or in the cloud. We make it simple to manage and secure video surveillance and network-connected devices to reduce costs, security risks, and installation time.

LEVERAGE OUR INDUSTRY EXPERTISE

Comnet by acre is here to support you throughout your project lifecycle. We offer support in:

- ✓ Requirement Definition
- ✓ Network Planning and Design
- ✓ Device Configuration
- ✓ Testing and Training
- ✓ System Upgrades
- ✓ Post Setup Support
- ✓ Limited Lifetime Warranties on Most Products
