

# Feenics One Mobile Credential & Cardholder Engagement App

## Manage Digital Identities & Engage Your Employees!

**Feenics One** is the premier mobile credentialing and employee engagement app, providing seamless digital credential management, two-factor authentication at the door, and a host of other cardholder engagement functionality. Empower your employees with an integrated work experience.

### Manage Mobile Credentials

Manage your digital credentials directly within Feenics One, from assignment through revocation. Reduce card issuance administration while elevating your on-boarding security process.

### Two Factor Door Authentication

Level up your door security. With two-factor authentication, credential holders need to authenticate their identity using the Feenics One app after presenting their credential at the door.

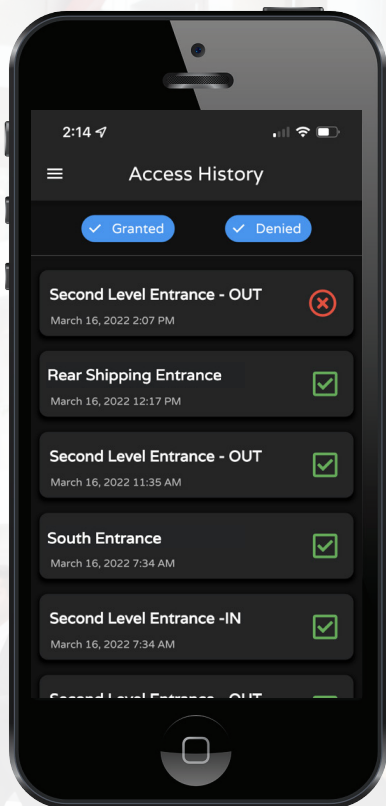

### Momentarily Open Doors

Feenics One allows employees to open doors directly from the app that have been assigned to their domain. Great for training labs and other common areas in a hybrid work environment.

## User Benefits

- ✓ Available for iOS & Android
- ✓ Manage your Mobile Credentials
  - Single point of control within Feenics apps
  - Easy, convenient, real time on-boarding
  - ID Assignment
