

Feenics Mobile

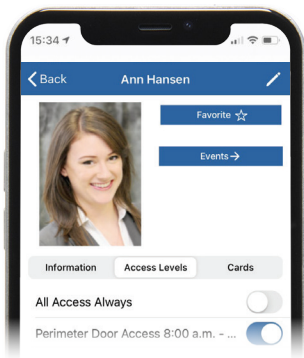

The Power of Feenics ... In the Palm of Your Hand!

Available on iOS and Android, Feenics Mobile is the perfect solution for monitoring your security operations when you are on the go! Perform real-time system operations and view live event activity right from your phone or tablet. You can even open doors from the backseat of an Uber or from the comfort of your couch!

Rapid Lockdowns

Control individual doors or place your entire facility on lockdown with a single click.

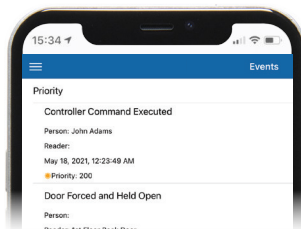

Enroll Cardholders

Remote enrollment is a breeze with Feenics Mobile. Add key information, including photo, badge type and access rights... ideal for dispersed workers or work from home environments.

Manage Alarms

View real-time event activity. Review special instructions and create your own acknowledgements, complete with photos taken from your phone or tablet.
