

# Security Management System (SMS)

## Overview

The **Security Management System (SMS)** by **acre security** is the ultimate solution for integrating your access-control technologies, digital video, and alarm monitoring systems.

SMS supports unlimited cardholders and readers, giving you unparalleled flexibility. You'll have the power to manage your facility administration from anywhere and enjoy real-time monitoring with audit trails to keep your security at peak levels.

With the SMS Web application, you can easily grant or deny cardholder access, lockdown your facility, and more - all from one convenient location.

Let's dive into what makes SMS stand out.
